

Have I done all of my summer math?!

Remember, only your active minutes will count toward your summer math work! If you want to check your progress during the summer, here are simple steps to see how many active minutes you have:

- Log on to [ixl.com](https://www.ixl.com) on a web browser (not on the app)
- Click on the **analytics** tab

- In the subcategories:
 - Make sure the subject says **math**
 - Skill Grades should be the grade below what you just completed through grade 12
 - EX: if you just completed grade 6 your skill grades would be 5-12
 - Date Range should be June 15th through August 31st. You can get this range by selecting **Custom** in the dropdown menu.
